

Business Insolvency & Creditors' Rights

Seltzer Caplan McMahon Vitek is a trusted resource and advisor when businesses discover their tenants, customers or vendors may be filing for bankruptcy protection and when business owners need to restructure their debts or their business model.

Bankruptcy involves unique, time-sensitive procedures, and valuable rights can be lost for failing to judiciously file an objection or claim. Complex business disputes that have traditionally been resolved in state court or in arbitration are now being resolved in bankruptcy courts. At SCMV, our attorneys have been involved in every stage of restructuring and liquidation issues that cross multiple jurisdictions and borders.

Our clients seeking comprehensive representation in bankruptcy matters include owners, investors, borrowers, vendors, banks, lessors and prospective asset buyers. Working with your financial advisors, we emphasize the wisdom of involving counsel early on when a possible bankruptcy is suspected down the road.

We handle business insolvency matters throughout Southern California and are proud of the trusted reputation our team has built within the local community. From bankruptcy judges to insolvency specialists in the San Diego community, SCMV is known for not only for the results we achieve for our clients but also for our integrity, efficiency and zealous advocacy of our client's financial rights and interests.
